LIBRARIAN'S REPORT

The Epsom Public Library has been running smoothly throughout the year with the cooperation of Library Trustees, the public, interested friends and the Librarian. Miss Anita Fife has been aiding the librarian each Saturday during the year and the fine job should be given a hand.

During the year many books have been given to the library for use or disposal at the Librarian's discretion. Many have been placed on the shelves. Selections of books from the Bookmobile have been made four times this year to supplement the current books for the public. These are selected by the Librarian.

A generous gift of records from RCA were given to the library with compliments. These are processed and circulating.

Shut in service for those unable to get to the library has been manned in fine fashion by Mrs. Ellen Eppelsheimer. Anyone wishing this service may contact the librarian for arrangements.

There have been exhibits for public's view, by the school children this year.

Several organizations have taken advantage of the film service for their meetings and the new list has many more interesting films again this year. Anyone wishing to make use of this service may also contact the librarian.

The library is open from 2 to 5 p.m. each Saturday. Circulation seems to be on the increase. Children have used it for reference work more this year. Many genealogy questions have been answered throughout the year and book gifts have been answered to the best of the librarian's ability.

There are many magazines for circulation, that may go out for a three weeks period of time, the same as books. Many of these are gifts of friends.

Attention has been given to purchasing specialized books for the public's requests, such as camping, hiking, church floral arrangement, doll books, antique books, stenciling, nature books, etal.

The Epsom library again this year received one hundred dollars from Federal Aid to be used for purchase of reference books.

Money was given by the Epsom Woman's Club for purchase of books in memory of lost members during the past years. Books purchased were the White Mountains by Arthur W. Vose in memory of Mrs. Bernice Eldredge; A Book of Country Things by Walter Needham in memory of Mrs. Florence Yeaton; A guide to Field Identification of North America by Chandler S. Robbins in memory of Mrs. Grace MacKay and Painting Patterns for Home Decorators in memory of Mrs. Alice Tripp. Another donation has been given in memory of Mrs. Doris Crosbie, but correct selection has not yet been found to date.

The abuse of books has been above normal this year and it should be pointed out that there are many people that would like to use the books further. At one of the trustees meetings, it was voted to prosecute the borrower of any books returned to the library in a state that they can no longer be placed on the shelves for further use. In looking back in old town reports of 1916, it appears this problem also was in existence. The price of books has greatly increased and some of the older books are almost impossible to replace. Also at the same meeting, it was voted that all overdue books will not be overlooked and a fine will be placed upon the borrower.

Representatives have attended the book selection meetings throughout the year when possible and a representative has attended the District meetings during the past year.

Although the activities have been less the past year, the interest and usage of the library has been notice-

ably increasing, with much time spent in the library by the school children on reference work.

The library is growing enough, that it now suffers "growing pains." There is not sufficient space for any work area, reference room is becoming rather crowded and definitely the shelves are becoming crowded enough that access to the books is not easily accessible to the public. It is hoped that the townspeople will see it practical to make available funds for enlarging the library in the near future.

The Library Trustees and Librarian thank all for the generous donations and efforts put forth to make the past year a successful one and are eager to welcome any suggestions from you, the public.

REPORT OF PARK COMMISSIONER

In 1969 The Webster Park Commission was expanded to four members with the appointment of Raymond Fife.

Our major project this past year was the painting of all of the buildings. This was done by Louis Demers, also some extended mowing and bush cutting was done.

It is hoped in the future that people will be more co-operative in cleaning up after using the park. We have been having weekly rubbish pickup which may have to be supplemented this coming season. It should be noted that the barrels placed for rubbish are not meant to be used for disposal of household garbage as has been done in the past.

REPORT OF THE EPSOM POLICE DEPARTMENT

January 1, 1969 thru December 31, 1969

As you can see from the summary on the opposite page, the services of your police department were required to even a greater extent this year than ever before.

There was an increase in calls received and answered, in man hours worked and in miles traveled. Although we have been more fortunate regarding the increase in crime than some of our neighboring towns, our list of duties has still increased greatly. We believe our increase of police patrolling during the week and especially during the weekend hours, has helped to prevent an even greater increase in many instances.

Your support will be very much appreciated in the coming year. Please report all curious or suspicious people, motor vehicles, or happenings to one of the numbers listed below.

REPORT OF HEALTH OFFICER

Year Ending December 31, 1969

During the year many septic tank installations have been inspected, but several more have not been, as owners have failed to notify this department.

Septic tank pollution is a very serious health problem and should not be overlooked by the property owner.

Several nuisances in other areas have been corrected.

The general health of the community has been good and no epidemics have been noted.

I appreciate your cooperation and am available at all times to assist in any health problem.

APPROPRIATIONS FOR CONCORD HOSPITAL

January 12, 1970

Chairman
Board of Selectmen
Epsom, New Hampshire

Dear Sir:

The Trustees of Concord Hospital respectfully request that the Town of Epsom include in its 1970 budget an appropriation of $482.00 for Concord Hosptial.

As in the past, this year's appropriation request is based upon the cost of net unpaid services (Charity care) given to patients during the year just ended. 2.2% of the patients treated at Concord Hospital last year were residents of Epsom. Using this percentage figure, your town's share of the hospital's $21,924 net unpaid charity services is $482.00.

A representative of the Hospital would appreciate the opportunity to appear before your Budget Committee to discuss and explain this appropriation request. If you will let us know a convenient date and time, the Hospital representative will plan to attend.

Health services at Concord Hospital are made available to all residents of Epsom. The continued financial support of your community is needed to help meet the cost of care provided those who are unable to pay.

Sincerely yours,

J. RICHARD JACKMAN,
President
Concord Hospital

SUPERINTENDENT'S REPORT

The New Hampshire State Board of Education has recently approved new minimum standards for the elementary schools of the state. This has many implications for the Epsom School District. The local district must develop a plan for the implementation of these new standards no later than September 1, 1972. However, for districts planning a building program, this program must include spaces to meet the requirements of the standards now. If not, the State Department of Education will not approve these plans. This approval is necessary in order to make the district eligible for state building aid.

In the following paragraphs, an attempt has been made to summarize these standards in order that the Board and the District will be informed as far in advance as possible.

The pupil teacher ratio in grades 1 and 2 must be 25 to 1 or less; in grades above the first and second, 30 to 1, or less.

Each elementary school must add to its offerings, if it has not already done so, the following subjects: art, health, music, and physical education. It must also provide services in the fields of library, guidance, and health. The district must make provisions for special education. If the district maintains a middle school or a junior high school, it must furnish opportunities in industrial arts and in home economics.

Each school must provide library services with a certified librarian available. For schools of 150 to 300 children, there must be 1,000 square feet of library space available; for enrollments of 300 to 500, it must have 2,000 square feet. The basic book collection must include 6,000 books. The annual budget must include an amount

of money equal to $5.00 per pupil to be expended annually for library purposes.

When attempting to meet the building standards for elementary schools, the following must be considered. Sites for elementary schools must be at least five acres in size, plus one acre for each 100 pupils. A 300 pupil elementary school, therefore, would require eight acres for site. Each classroom, when new construction is undertaken, must include at least 900 square feet, or 30 square feet per pupil.

In regard to the professional staff, all staff members must be certified by the teacher certification office of the State Department of Education. Other staffing requirements are as follows:

The principal must be employed on a full time basis in schools with an enrollment of 300, on a half time basis for schools with less enrollment. There must be a school secretary for schools with an enrollment of 300 or more.

The above summary, of course, does not include all of the details of the newly established standards, but does indicate some of the main things which must be considered in any long range planning. The immediate conclusion is that this will cost money for equipment, for materials, for building expansion or renovation, and for staffing.

It would seem to the undersigned that if these standards are to be met by the local districts, there must be a change in the present method of financing education in New Hampshire. It does not seem fair to add this additional burden to the presently used property tax base.

In 1955, I began my association with the citizens of Epsom as a neophite superintendent. This was the year that the Epsom Central School became the academic center for the children of the community with adequate facilities for many other activities such as a school lunch program, dramatics, athletics and homogeneous grouping. As the years passed, it was necessary to build an

additional eight classrooms to accommodate the continued growth in enrollment, and, at the continued rate of increase, will soon be filled to capacity. Long range planning is now in progress due to the foresightedness of your school committee.

Beginning July 1, 1970, Epsom will be assigned to Supervisory Union No. 53, which includes Pembroke and Pembroke Academy. I personally consider this assignment a natural one since all of the secondary pupils will be attending the Academy. Therefore, terminating my association with a community, school board, teaching staff and children who have been most cooperative, respectful and understanding is indeed a difficult and most unpleasant task.

In closing, may this office express its thanks for your considerations, support and understanding. Our sincere best wishes to the future of the community.

SCHOOL HEALTH REPORT

To the Superintendent of Schools:

The health program for the year, 1968-69, was carried out in the usual manner with an annual physical inspection of each student by the nurse. When defects were noted, the appropriate referral and follow-up were made.

The Heaf Test for tuberculosis was offered in each school to the first and second grade students. A total of 324 children were tested, and 4 also received the Mantoux Test.

The students of Epsom, Northwood, and Strafford again received the benefit of preventive dental care through programs sponsored by the N. H. Bureau of Dental Public Health and one or more local organizations. Barrington, Epsom, and Northwood schools also provided corrective dental treatment through The Matching Funds Program.

142 children were registered for first grade at Preschool Clinics held in April and May. Mrs. Norma Keeler of Epsom again offered her services at these clinics, and her help was greatly appreciated by all.

The ever increasing school population has had its effect on the health program, as well as elsewhere, raising the case load to well over 1,000 students for one nurse. The recommendation of the N. H. State Board of Education is for a maximum case load not to exceed 750 pupils per nurse; and, ideally, a full-time nurse for every 350 students.

I would like to express my sincere appreciation to Mr. Martineau, Mr. Morgan, School Board Members, teachers and parents for their cooperation and support during the past year.

Respectfully submitted,

DOROTHY Y. WELLS, R.N.
School Nurse
